As part of the Adoption Review some one from Hearts & Hooves will want to come to visit your residence and look at the area designated for the horse. These arrangements will be made prior to the successful completion of the above application.

It should be noted that not all Applicants can adoptee a Hearts & Hooves horse sometimes due to not meeting the specific needs of the horse in mind, lack of horses up for adoption, and or not meeting the criteria of our Adoption process. In any case if Hearts & Hooves feels they can be of assistance in helping you locate or find other horses they are willing to provide additional information and guidance.
